Humberside Advisory Council Presents...

**IT'S A TEEN'S WORLD
DOCUMENTARY AND
DISCUSSION WITH FILMMAKER
& JOURNALIST,
LYNN GLAZIER**

You are invited to see the award-winning documentary film "It's a Teen's World: Wired for Sex, Lies and Power Trips". Filmmaker Lynn Glazier will present and discuss the issues raised by her film, which is feature length and has never before been screened on television.

This evening is an opportunity to gain further insights and awareness into the complex social world of our teen children, especially when it comes to issues around sexual harassment (online and face-to-face) and the way teens today are influenced by provocative and demeaning media messages.

Excerpt from www.itsateensworld.com . . .

"We recognize that many parents and kids do not talk about sexual bullying, harassment and pressures because they are deeply uncomfortable with the topic and lack knowledge. Parents will often assume - incorrectly - that their kids would come to them if they had a problem, and kids assume - incorrectly - that their parents don't know anything and couldn't possibly help them. Today's teens are greatly challenged by the violent and misogynistic messages in the media they consume and their own impulsiveness and risk-taking behaviour. They need - and actually want - adults to listen to them and guide them without lectures and judgment. The film provides many examples and opportunities for families to discover their own path."

Parents are encouraged to bring their children to see the film and hear the discussion.

However, please be advised that the film is for a Grade 9 - 12 audience and contains mature themes and some coarse language. It would not be suitable for younger children.

Monday, May 9th 7:00 p.m.

Lismer Hall, Humberside Collegiate

280 Quebec Avenue Toronto M6P 2V3

Sponsored by the Humberside Advisory Council
